

Helmet, Clean

Spread your mind the fish feed
Don't ignore my speech my
Heart bleeds
Make yourself the perfect butt
Some passing thought, I don't know what
 Don't remind me, I'll take
 What I need to
Get back in case the door swings and
Don't forget to hide
Your mood rings
Fit to tie
I thought I knew good company
I'd like to be you
 You're right behind me and
 Mouth all I read
 Don't remind me, I'll take
 What I need to
 You're right behind me and
 Mouth all I read
