

Helmet, Money Shot

Dirty pictures, watch as she gets paid
The money shot
Greatest hits on the mattress are
What she's got

So relive her of right where you belong
You want to be wanted
But nothing is as good as you thought it would be
You still get the money

The crush gets physical, he's got no heart
You don't mind
Shakes your confidence, he's looking out
Don't know what he'll find

Well I'll sit back and watch
While you take it off
Like a veteran actress

So relieve her of right here you belong
You want to be wanted

So believable, you can't take it off
Now you know you're wanted
Everything is good, like you knew it would be
Now you're wanted
