

# Helmut Lotti, I Don't Know Why

&quot;I really have to show you  
I am so glad I know you  
Now we are saying goodbyes  
I,m not ashamed to cry  
But God knows the reason why  
You have to leave

I don't know you must move on  
I don't know why but all though you'll be  
Gone  
You'll stay with me eternally  
And wherever you are  
Even tough we're apart  
You will be in my heart

I wish I'd known you longer  
I wish I'd felt you stonger  
You got so much out of ligfe  
That's why you were able to give  
That's why you were able to live  
A life with love

I don't know why fate's unfair  
I don't know why they need you up there  
You have to leave and I will grieve  
But I wish you my best  
Because that's what you gave  
And that's what will last&quot;
