Rockness Monsta, is he for real? It can't be
See him in action as he transform that man's me
Enemies ain't Kotter, ain't no Welcome Back in my home or

And 6 feet deep is where you sleep
eternally restin in peace you felt relief
Now big up to all my true headz in the East
Stalkin the block not leavin the house without they gat
You best ta believe that Fab 5 got my back
(got my back) It's like dat

[Verse Two: Ruck, Louisville]

I control the masses, wit metaphors thats massive
Don't ask if the nigga Ruckest bash shit like Cassius
I'm drastic, when it comes to verbs I be flippin
Cuz herbs jus be shittin off the words I be kickin
I scold you, double headed swords for the petty
but I told you, bitch niggaz that Headz Aint Ready
Now I mold you, back to the bitch that you are
fuckin wit the Ruckest get bruised, battered and scarred

Guess who, punk chump, your brain jus blew
It's the Originoo Gun Clappa two
Rushin through, three on three you can't see we
Cuz we stay tight and not many niggas wanna fight
So sneak in where a nigga in the cipher of the camp
Jus got amped so I took em out for a dance

Bigga triggas fallin down
Like the bridges of London, but ain't too many niggaz runnin

[Chorus]

[Verse Three: Rock (Louisville)]

Aiyyo why oh why did I need cappucino
Scar on my face but I'm not Al Pacino
(We 3 amigos) Sparsky and Dutch we bring mo'
drama than what? (A primetime NBC TV show)
(Headz don't know and damn sure ain't ready)
(Niggas walk the street wit more Boop than Betty)
Shit'll get heavy (back of the tree now surrender)
(My pon hits yo mind mix thoughts like a blender)
Then I dish off from a shooting guard to a center
Like Rockafella you hit rock bottom when you enter
(O.G.C. rush the scene, the mission from backup) Yeah
(Baseball bats attack like Jersey fools that act up) Act up
(Folks is passed now, petrol, go get dough)
(Pepto-Bismol before this nigga let go)
He said go what you do grew screwed I blew through
two crews who claim they got funk maybe true cuz they doo-doo

[Verse Four: Ruck, Strang (Top Dawg)]

Everybody framed, ain't nobody yappin no more
I've evidence on your click so y'all niggaz hit the floor
With that mouth murderin you got that ass in hot water
Now I just oughta send a piece to your headquarters
to take away your stripe, you fucked up tonight
You don't do right you're gwan get dead to spite
Our click foundation stays thick through the war
I'm keepin my eye out for infiltrators at the door

It's a shame how these MC's are wannabees
front on these and get hung up like dungarees (please)
ease off selecta Strangle wrecks ya
plus bust asses on whoever passes through my sector
(So what you gonna do when you stuck at thirty-two)
(degrees please, get off yo knees and follow these)
(now swallow these, buckshots from the rifle)
(then I will make niggaz Beat It and Scream just like Michael)
So how many corny MC's gwan try
when Strang sets shit off like the 4th of July
(Nobody) Why? (Cuz everybody gets bodies my brother)
(I smother a nigga then Ruck bounce like rubber)
Step to tha stage set the microphone on fire
Yo desires, they call me siah cuz I'm flyer
Live like wires, beast from the East who is he
When I roar like a grizzly they say damn he gets busy

[Chorus x2]
