

# Henson Cargill, I Like Having You Around

And you're much more than a lover to me I like having you around  
Everybody loves one thing or another it's a natural thing to do  
But there's more to it when you love them people  
You have to love and like 'em too  
And you're much more than a lover to me no truer friend I ever found  
You see I not only love you honey I like having you around  
Yes I do I like having you around

It's so easy to love from distance and leave it hangin' in the air  
I think you have to touch and hold and kiss 'em  
You have to be there to care  
You see I not only love you honey I like having you around  
Yes I do I like having you around
