

# Henson Cargill, I Wish I'd Known Enough About Love

Sometimes too much fuel can smother up the fire  
And sometimes too much love can strangle that desire  
I held her too tight till the feeling was gone  
Oh I wish I'd known enough about love to leave love enough alone

Sometimes a single tear can speak a thousand lies  
And sometimes it's hard to tell the foolish from the wise  
Someone who could be so right could also be so wrong  
Oh I wish I'd known enough about love to leave love enough alone

When you cast too big a shadow love can grow enough to show  
It's a pity I didn't know enough to know  
But it always seems to happen when a brier meets a rose  
Oh I wish I'd known enough about love to leave love enough alone  
But it always seems to happen...
