

# Her Majesty, To Capture The Moment

To capture the moment  
Of their circus rolling out of town  
Will you walk around  
With the face of a clown  
When you're feeling down  
And you may not know  
These facts I'm about reveal  
If you don't take me with you  
Well, they'll get rid of you for real

And I will stand confused  
If they don't roll over you  
'cause they will roll over you  
Someday soon

And the face from the photo  
Is not the one that you wear  
As you were before, well  
You'll be no more so let them stare  
Since you're not one of them  
And no, neither am I  
You better take me with you  
Or I'll get rid of you this time

And I will stand confused  
If they don't roll over you  
'cause they will roll over you  
Someday soon

So to capture the moment  
Of their circus rolling out of town  
Will you walk around  
With the face of a clown  
When you're feeling down
