

Herb Alpert & The Tijuana Brass, Diamonds

You told me you love me
you told me you care

But when I'm around you
it's like I'm not there.
I need a reminder
something I can see

Something on my finger shines so brightly.

Don't you know
diamonds are a girl's best friend

When you go
they stay with me until the end.
Don't you know
diamonds are a girl's best
best friend

When you go
they stay with me until the end.

Don't want your money
don't want your key

Diamonds - love don't come for free.
Don't want your money
don't want your key

Diamonds - love don't come for free.

They say you need some roses
but roses do die

You gave me some candy
it melted
nice try.
I'm not that demanding
I have simple taste

I just want a token that can't go to waste - Diamonds.

Don't want your money
don't want your key

...
Don't you know
diamonds are a girl's best friend

...
Don't want your money
don't want your key

...
Don't want your money
don't want your key

Diamonds - love don't come for free.
