

# Herb Alpert & The Tijuana Brass, Diamonds

You told me you love me  
you told me you care

But when I'm around you  
it's like I'm not there.  
I need a reminder  
something I can see

Something on my finger shines so brightly.

Don't you know  
diamonds are a girl's best friend

When you go  
they stay with me until the end.  
Don't you know  
diamonds are a girl's best  
best friend

When you go  
they stay with me until the end.

Don't want your money  
don't want your key

Diamonds - love don't come for free.  
Don't want your money  
don't want your key

Diamonds - love don't come for free.

They say you need some roses  
but roses do die

You gave me some candy  
it melted  
nice try.  
I'm not that demanding  
I have simple taste

I just want a token that can't go to waste - Diamonds.

Don't want your money  
don't want your key

. . .

Don't you know  
diamonds are a girl's best friend

. . .

Don't want your money  
don't want your key

. . .

Don't want your money  
don't want your key

Diamonds - love don't come for free.
