

# Hi-Fi, Childhood

I remember time I was a child  
That was magic unbelievable time  
That was just a little bee  
I was just a little bee  
That was only one time in my life  
She was going past - I've got to feel  
She was like a dream but she was real  
That was just a little bee  
I was just a little bee  
That was only one time in my life

Say how can I get you  
Say where are you now  
Say how can I touch you  
Say what can I do

Everything is done, you know it's life  
(Everything is done, you know it's life)  
Everything is gone, that's now a dream  
(Everything is gone, that's now a dream)  
That was just a little bee  
(That was just a little bee)  
I was just a little bee  
(I was just a little bee)  
That was only one time in my life

Say how can I get you  
(Say how can I get you)  
Say where are you now  
(Where are you now)  
Say how can I touch you  
(Say how can I get you now)  
Say what can I do
