

# High Holy Days, Exfugo

I got a feeling I can't explain  
I got a need that I can't contain  
The look around here it's pretty plain  
Nothing changes it's staying the same  
I got it right here, I got it right now  
Come on baby won't you help me out

I'm living in a northern town ya  
And I said I know everybody now and  
All their saying is "Get the hell out of here"  
I'm going to the sacred place where  
No one's gonna know my faces and  
All their saying, "How's your life now?"  
Pack your bags  
Hit this road  
I don't need advice  
I got my insights  
It's not hard to figure out

Life is crazy when you're down on your knees  
I'm looking everywhere I'm begging please  
And maybe one day, you'll see it my way  
I won't be acting like life's your disease no  
I'm going to leave this town  
Going to have that now  
Destined somewhere gonna figure it out

## CHORUS

And you think dreams are bigger than life now  
Let me show you said their smaller then me  
I'm going to see this world  
I'm going to have that girl  
I'm out here and there's so much to see  
And then I'll turn around  
I'm looking for the backdrop sound  
I can't hear that bullshit town now  
And then it comes to me  
I said it's far to see  
Looking forward saying that's all right now

## CHORUS

You can search, search for a lifetime  
To find meaning in something that's right  
Here you are bent to the grindstone  
If you were young you'd live more for the life  
It's been the same as long as I've known you  
But not today  
I'm living, I'm living, I'm living my life
