All:

Our prom time!

Yeah!

I was thinking about everytime:  
You've always stood beside me,  
And no matter what you say  
I will be here until forever.  
So we'll join hands; here and now,  
Embrace the future willingly,  
And enter into tomorrow.

Refren:

I was thinking about yesterday  
And laughed as I remebered the memories,  
I was thinking about everytime,  
Every moment we were together,  
And even if I cry  
You'll still be here tomorrow.

GIVE ME SOME UNDERSTANDING  
TO HELP ME WALK THIS THROUGH,

Let me know you'll stay forever  
I was thinking about everyday  
When you were here beside me.

Refren:

I was thinking about yesterday  
And laughed as I remebered the memories,  
I was thinking about everytime,  
Every moment we were together,  
And even if I cry  
You'll still be here tomorrow.

Another day gone,  
And these words have been left unsaid,  
I was thinking about everytime  
And every moment  
That they never were  
You can have them now.

Refren:

I was thinking about yesterday  
When I couldn't tell you  
I was thinking about tomorrow  
When it might be too late  
I was thinking about right now  
And everytime I wanted to say...  
I love you  
Hold me tight  
Don't let go
