

# Hilary Duff, Same Old Christmas

(feat. Haylie Duff)

[verse one]

rows of angels in the snow  
hugs and kisses by the mistletoe  
sugarplum fairies everywhere, must be that time of year  
stars that shine on christmas trees  
smoke that curls from chimineys  
rednose reindeer taking flight and choir singing  
O Holy Night

[chorus]

its the same old, same old christmas eve  
its the same old christmas day  
its the same old, same old christmas  
but I like it, I like it that way

[verse two]

Another snowman with a button nose  
presents all wrapped up in bows  
friends and neighbors knockin at my door  
like every christmas thats come before

[chorus]

its the same old, same old christmas eve  
its the same old christmas day  
its the same old, same old christmas  
but I like it, I like it that way

[bridge]

seasons keep on changin, the snow will melt away  
but everything will be the same again, next year on christmas day  
and I like it, I like it that way

[last verse]

rows of angels in the snow  
hugs and kisses by the mistletoe  
friends and neighbors knockin at my door  
like every christmas thats come before

[chorus until music fades and ends]
