

Hilary Duff, The Math

You're always trying to figure out
What I am all about
If you don't know what the answer is
Then just shut up and kiss

It shouldn't take forever
To put it all together

[CHORUS:]
If you can't do the math
Then get out of the equation
I am calling you back
This is * 69

Is it a minus or a plus
Does enough equal enough
If you can't do the math
Then nothing adds up
Tell me why I'm here

Sure I want someone to understand
But I don't need the stress
I'm not about being analyzed
Like it's some kind of test

Don't have to be a genius
To figure what's between us

[CHORUS]

You can spend your whole life analyzing
Justifying, quantifying, and dividing
'Till there's nothing anymore
Why don't you just close your eyes
And kiss my lips and let it go
Just let it flow
It's what I'm waiting for

Don't have to be a genius
To figure what's between us

[CHORUS 2X]
