

HIM, Again

I see you turn your back on life again
And I see your stumbling down worked smooth again

I feel despair kissing our lips again
I feel despair holding our hearts again

You hear me crying behind your back again
You hear my heartbeat slowly down again

I feel despair kissing our lips again
And I feel despair holding our hearts again
I feel despair kissing our lips again
And I feel despair holding our hearts again

Oh baby yes
I feel despair kissing our lips again
And I feel despair holding our hearts again
I feel despair kissing our lips again
And I feel despair holding our hearts again

Despair holding our hearts again
That's right
Yeah
