

Hinder, Up All Night

Saw a waitress, couldn't waste it
Opportunity knocks and you take it
Went to my place, got to get a taste
A couple shots at the bar we were wasted
You know she's all in, the room is spinning
Probably shouldn't have shot that Jameson
Here we go again, she's a perfect ten
Just tell me how it was in the morning

The night's far from over
and I'm far from sober
But she's looking fine

We're gonna be up all night
Going to take you for a ride, yeah
We're gonna be up all night
Get it on till the morning light, yeah
We're gonna be up all night
Doing things your dad won't like
So far from sober that
I'll have to sleep through my hangover
We're going all night

My attention, when she walked in
Turning heads with a tiny skirt and sexy grin
She's a blonde one; they say they're more fun
I'll let you know when the sexy dirty deed is done

The night's far from over
and I'm far from sober
But she's looking fine

We're gonna be up all night
Going to take you for a ride, yeah
We're gonna be up all night
Get it on till the morning light, yeah
We're gonna be up all night
Doing things your dad won't like
So far from sober that
I'll have to sleep through my hangover

We're gonna be up all night
Going to take you for a ride, yeah
We're gonna be up all night
Get it on till the morning light, yeah (yeah baby, come on)
We're gonna be up all night (oh here it goes, baby)
Doing things your dad won't like (hold on tight)
So far from sober that
I'll have to sleep through my hangover

We're gonna be up all night
Going to take you for a ride, yeah
We're gonna be up all night
Get it on till the morning light, yeah
We're gonna be up all night
Doing things your dad won't like
We're gonna be up all night
Yeah, yeah, yeah, yeah, yeah...

(We're gonna be up all night)
I'm gonna do some really dirty things to you, girl
(We're gonna be up all night)
As it winds down, don't think you're going to bed
(We're gonna be up all night)

We're gonna keep it going

We're gonna be up all night
All night, all night
