

# Hippos, I Know

You get me going like a wind up toy  
So pay attention to a broken boy  
You got me going  
Well I cannot stop it and if you keep me going  
Gonna see me pop  
I'm in love with what you do  
The way that I'm attached with you  
Self fulfilled and to a smile  
The list could go for miles  
(All the perfect things you do)  
I know what you're thinking when you cry  
(When you cry)  
I know what you're thinking when you smile  
(When you smile)  
I know that you're just a little child  
I know you know  
(All the perfect things you do)  
You've got me going like a grade school crush  
My head is spinning and my face is flushed  
You've got me going like a fast paced heart  
And if you keep me going, gonna fall apart  
I could write a thousand words  
Useless nouns and needless verbs  
I could shout a million times  
Until the neighbors hear my cries  
(All the perfect things you do)  
I know what you're thinking when you cry  
(When you cry)  
I know what you're thinking when you smile  
(When you smile)  
I know that you're just a little child  
I know you know  
(All the perfect things you do)  
You make me melt  
I know what you're thinking when you cry  
(When you cry)  
I know what you're thinking when you smile  
(When you smile)  
I know that you're just a little child  
I know you know  
All the perfect things you do
