

# Hippos, Thinking Of You

In the middle of the night  
With nothing to do  
I was looking for a fight  
I was thinking of you  
I was thinking of you  
I was thinking of you  
And how you never came through  
I was thinking of you  
All my hopes and my dreams  
They're all gone in a flash  
Things are never what they seem  
It's always crash  
Crash  
Crash  
I was thinking of you  
I was thinking of you  
And how you never came through  
I was thinking of you  
I was thinking of you  
And for a while I was brainless  
But your skin was so tender  
I forgot what a thought was  
But then I remembered  
I was thinking of you  
I was thinking of you  
And how you never came through  
I was thinking of you  
I was thinking of you  
Everybody  
Grab somebody  
Put your shoes on  
Shake your body  
Everybody  
Grab somebody  
Put your shoes on  
And shake your body  
I was thinking of you  
I was thinking of you  
And how you never came through  
I was thinking of you  
I was thinking of you  
I was thinking of you
