

# Holden Avenue, Face The Fact

Walking down the road  
Trying to fit in  
Is it what you want?  
Or just others dream?  
Don't need to sacrifice  
In the name of crowd  
You're not like that  
Living's better underground  
Face the fact  
You won't blend in  
But don't fucking care  
That's the way it is  
Can you help me find myself?  
Could you show me where's my place?  
I've been lost for many years  
Now it's time to change all of my ways
