

Hole, Valerie Loves Me

Valerie's dancin', on the room above my bed, you know
For all of the world below to see
Valerie's leaving, in a car outside my house, you know
Such a shame she's not with me and all the pretty things
And all the love my heart could bring
I would give my whole life to her

Valerie loves me!

Valerie's driving, in a car around my neighborhood
She's thinking of all the men she'll meet
I could only hope for a stolen moment of her thoughts
Between the walk in a club and
all the drinks she'll have in a crowded room
where everyone leave too soon,
I only hope that she remembers me

Valerie loves me!

Valerie loves me!

Valeries's lonely, in an apartment down the street, you know
And her hair has turned so grey
But she's so happy for the memories she has, you know
She can believe in the day when love was always on a string
And she could have had anything
She ever wanted
But she can't have me

Valerie loves me
