

# Holland, Shine Like Stars

Feels like there's something in the air  
And I hope my head explodes  
Once more whisper in my ear  
Cause I won't let this go again

Frustrated, motivated, you're underneath my skin  
Descending, never ending, we'll make it to the end

We shine like stars  
We shine like stars oh yeah  
Bright as the sun we're dead and gone  
We shine like stars

Hold your breath  
There's something up ahead  
And I think we were born for this  
Fell love punch you in the gut  
And I think we were born for this

Frustrated, motivated, you're underneath my skin  
Descending, never ending, we'll make it to the end

We shine like stars  
We shine like stars oh yeah  
Bright as the sun we're dead and gone  
We shine like stars

I feel your heartbeat  
I feel your heart
