

Holly Tree, Best Wishes

i came here just to say how i hate you
it might be your stupid face that makes me do
all these actions, like destroying
everything that reminds me of you
i know you have been trying to fuck me up
but if you look at me, you'll see i'm not that bad
now realize yourself, and see there's no way out
i just don't care for you, and for anything at all

now you're in your hell
and i really like it
now you feel what i felt
are you enjoying the shit?
