

# Holly Valance, Harder They Come

Nah nah nah nah nah nah nah nahnah  
Nah nah nah nah nah  
Nah nah nah nah nah nah nah nahnah  
Nah nah nah nah nah

I don't need no-one who's gonna tie me down  
I need you to let me be  
Why is it, they always seem to come around?  
I don't have time for me

Have some pride, lift your head high  
Walk away while you can  
There's nothing I can do to save you now  
So take it like a man

The harder they come, the harder they fall  
You think I'm yours but I'm not at all  
The harder they come, the harder they fall around me  
The harder they come, the harder they fall  
Your confident but you'll lose it all  
The harder they come, the harder they fall around me

Love my freedom, nothing's gonna take it from me  
Don't want it to end  
I can't see why people always try and change me  
That's not my intent

Have some pride, lift your head high  
Walk away while you can  
There's nothing I can do to save you now  
So take it like a man

The harder they come, the harder they fall

You think I'm yours but I'm not at all  
The harder they come, the harder they fall around me  
The harder they come, the harder they fall  
Your confident but you'll lose it all  
The harder they come, the harder they fall around me

Nah nah nah nah nah nah nah nahnah  
Nah nah nah nah nah  
Nah nah nah nah nah nah nah nahnah  
Nah nah nah nah nah

Nah nah nah nah nah nah nah nahnah  
Nah nah nah nah nah  
Nah nah nah nah nah nah nah nahnah  
Nah nah nah nah nah

The harder they come, the harder they fall  
You think I'm yours but I'm not at all  
The harder they come, the harder they fall around me  
The harder they come, the harder they fall  
Your confident but you'll lose it all  
The harder they come, the harder they fall around me

Nah nah nah nah nah nah nah nahnah

The harder they come, the harder they fall  
You think I'm yours but I'm not at all  
The harder they come, the harder they fall around me

Nah nah nah nah nah nah nahnah

The harder they come, the harder they fall around me  
Nah nah nah nah nah nah nahnah
