

# Holly Williams, Take Me Down

(Holly Williams)

It's a dead end road and I'm fully aware  
You got me there, It got me to you  
Baby I could do better but I don't care  
It's all the same when it's killing you

Please don't leave me, though my heart is black and blue  
My love, deceive me  
I'll believe you  
Take Me Down

It's a naive world who loves the pain  
The more it hurts, the more we gain  
And I talk to God but I got no prayers  
I don't wanna rise out of this hell

Please don't leave me, though my heart is black and blue  
My love, deceive me  
I'll believe you, I'll believe you  
Take Me Down

I'll please you in the morning light  
When you're done, you leave my bed  
And I've known all along that this ain't right  
I give, I give, I give  
You only take
