

# Holy Moses, Down on Your Knees

Rise... Down on your knees

The beats of blood and death will crush your empty mind  
I am full of hate but I can fuckin' see  
When you try to kill me  
taste the feel of who you like to be

Lay the Fuck back down

See your fate  
Try to rush me out  
running out for what you like to see

It's your turn  
for what you like  
and what you thought

With your war you like to try to open doors  
but you will set your own gates into flames

You try to be a great demon god...I rise

Down on your knees  
to pray for the horned beast  
Down on your knees  
get ready to say please  
Down on your knees  
to pray for the horned beast  
Down on your knees  
get ready to be a great demon god  
For all to see your furious hate  
I want to see you down on your knees  
to pray for the beast

Pray for you soul - descended from your hell  
My power will arise for the world I set in flames  
The thunder roars in hell the liar blood falls to the ground

Down on your knees  
get ready for the beast [3X]  
Down on your knees  
pray for beast  
Down on your knees  
to pray for the horned beast  
Down on your knees  
you want war  
Down on your knees  
for all ready to see

I bring you to the slaughter of death
