

Home Grown, She Don't Care

I don't want this anymore
if being with you turns out like before
(waiting for you)
to make up your mind while I burn inside

answer me
do you want to be with or with out me
I don't want to be the one to change your mind
If you don't care

you know what you done is wrong
you can't keep leading me on
(waiting for you)

there is a lesson to be learned
now its your turn

answer me
do you want to be with or with out me
I don't want to be the one to change your mind
If you don't care
(if you don't care)
cus I still care
(I still care)
and i'm still here

I don't want to be the one to change your mind
If you don't care

I don't want to be the one to change your mind
If you don't care
(if you don't care)
cus I still care
(I still care)
