

# Honeycut, Shadows

Somebody tell me why  
I'm so tired I could cry  
Fell out the window like a crooked cat  
Don't wanna lay down and die

Lady with the white clothes came from easy street  
And now dirty work is all she does  
But she don't wanna show a poor boy where to go  
I'm in the darkness because

Shadows at night keep good company  
Shadows of day time too  
Standing on the fringes of light  
Shadows of love will shelter you

Fell out the window like a crooked cat  
Well she set my house ablaze  
Landing in slow motion  
What a beautiful crash  
Into a dead end street

No Casanova with a magic lamp  
But in the cast I play the lead  
Keep it in mind and you just might find  
That shadows are all you need

Shadows at night keep good company  
Shadows of day time too  
Standing on the fringes of light  
Shadows of love will shelter you

Shadows of night keep good company  
Shadows of the day time too  
Standing on the fringes of light  
Shadows of love will shelter you  
Shelter you  
Shelter you
