

Honeycut, Tough Kid

Such a tough kid
Didn't learn enough kid
and the rage it's just a phase you're going through

So you can make no
can't make the grass grow
There's a hole inside the universe for you

You thought it was all about space but
you forgot about time
too busy making that dime

The future is here today
you thought it was all about pay but
you forgot about love

Tough kid
Another rough kid
Listen to me son

Call your mamma
she been looking for you
stop playing games with the girls

Now where's tomorrow
where'd all your friends go
The distance starts to look so far away from view

No elevator
I'll see you later
There's a hole in this whole universe for you

You thought it was all about flying but
you just caught the red eye
you ain't even that high

The future is here to stay
you thought it was all about pay but
you forgot about love

Tough kid
Another rough kid
Listen to me son

Call your mamma
she been looking for you
stop playing games with the girl

(tough kid)

Tough kid
Another rough kid
Listen to me son
(you better)

Call your mamma
(call your mamma)
she been looking for you
stop playing games with the girl
