

Honeydogs, For the Tears

Made out like a bandit
Never ends like you planned it
You don't carry a torch for him
The earth was scorched for him
Now you can't forget

It's not the same
It's never better
It'll change your world
If you let it, for now
You can't see (more)
For the tears

Make sure you get dressed up
You'll never know, if you'll see your Ex there
But he'll finally fade out
'Cause you stayed out too long

It's not the same
It's never better
It'll change your world
If you let it, for now
You can't see more
For the tears

Who, carved the name on your heard board'
Who'
It's true
You can stand it out it's true

Ba ba ba da...

There's the peeing on trees you know
The birds and bees you know
Don't wanna let you go
When they're kicking your tires one day
You're gonna tell 'em 'hey, this car's up for sale'

It's not the same
It's never better
It'll change your world
If you let it, for now
You can't see more
For the tears (x 9)
