

# Honeymoon Suite, Long Way

I've seen the faces  
And empty lives  
And in the shadows  
You'll damn the lies

The shattered secrets,  
The shattered dreams,  
Blinded by the light  
And you don't know what it means

And now there's no turning back

And I been such a long way, on my own  
Been down the path again  
Such a long way to go  
And so far to run  
Down the road again

You hold my hands  
And tell me what I wanna hear  
Mother never stands  
It's just another day, another year

I tried to hold on  
To something I'll never see  
Tryin' to walk this road in front of me  
These empty faces, lonely places  
Will never let me be

I've been such a long way, on my own  
Been down the path again  
Such a long way to go  
And so far to run  
Down the road again

Like a fool on a giant rope  
You can shake me  
You can't break me

The shattered secrets,  
The shattered lies,  
Blinded by the light, and hypnotised  
And now there's no turning back

And I been such a long way, on my own  
Been down the path again  
Such a long way to go  
And so far to run  
Down the road again

Such a long way to go  
And so far to run  
Down the road again

Down the road again  
Such a long way to go  
Long way to go  
Such a long way to go
