1.

you can only speak and look at me
you know the steps i've never made
sometimes i think that i cant stay
but i know this is my perfect way
it's your stupid game i dont wanna play
if it's not your show just get outta my way
i see you're wating for me to fall
juz give up baby im not gonna stop
every move i make, every word i say
make me higher, make me stronger

Ref.:

2.

you you you like to be my judge
only knowing my face face face
you you you dont know any facts
only rumours which i hate
If you dont like who i am
why you watch me day by day
im tired of your stupid words
try to meet my soul
theres anothers side of me
you see only bad things
theres anothers side of me
you see only bad things
You can only say who i should be
wanna change our ways? lets see, let it be
you're gonna understand what i feel
when when you talk shit about me
it's your stupid game i dont wanna play
if it's not your show just get outta my way
i see you're wating for me to fall
juz give up baby im not gonna stop
every move i make, every word i say
make me higher, make me stronger
make me higher, make me stronger

stop, stop, stop, stop
