

# Hope, Lighthouse

I wanna sing, While the ocean sleeps  
I wanna feel, what its like to be free  
I wanna see, what you see in me  
I wanna know, how it feels to believe

Cus I feel lost, somehow Im drifting away  
Was almost gone, You brought me to life again  
So let me be your lighthouse  
And Ill help you find a way out of here  
I see the tide is comin  
Don't let it take you away from me  
Theres no way I'm jumpin over  
I know its your love that saved me

Cus I was lost, somehow drifting away  
Was almost gone, You brought me to life again  
So let me be your lighthouse  
And Ill help you find a way out of here  
I can see the tide  
From a faraway out  
But its slowly drifting away from me

Cus I was lost, somehow drifting away  
Was almost gone, You brought me to life again  
So let me be your lighthouse  
And Ill help you find a way out of here  
let me be your lighthouse  
And Ill help you find a way out of here
