

# Hope Of The States, Four

I've had enough  
Of loyalty oaths  
And religious revivals

The gambler's debts  
Security checks  
And the fight for survival

I'm getting out of this town  
It's making me nervous  
If this is the world where do we go to start again?

All of our hearts are beating  
Out in perfect time tonight  
The sound is a thunder  
And you people should wonder  
How yr ever gonna shut us up forever

All of our hearts are beating  
Out in perfect time tonight  
You didn't think we could  
You didn't think we would  
But we did

I am not scared  
I am prepared  
For what is coming

I wanted it all  
I sent out a call  
And now it's beginning

I'm out of time  
I'm crossing the line  
Whatever happens

All of our hearts are beating  
Out in perfect time tonight  
The sound is a thunder  
And you people should wonder  
How yr ever gonna shut us up forever

All of our hearts are beating  
Out in perfect time tonight  
You didn't think we could  
You didn't think we would  
But we did

All of our hearts are beating  
Out in perfect time tonight  
The sound is a thunder  
And you people should wonder  
How yr ever gonna shut us up forever

All of our hearts are beating  
Out in perfect time tonight  
You didn't think we could  
You didn't think we would  
But we did
