

# Hope Of The States, The Good Fight

Can we dance in the rain  
And fill the street with parades?  
No one's left behind  
We all wait in line  
Defiant I shall be today  
But I won't forget how much we paid

And despite it all  
We're doing alright  
Our friends by our side  
We fight a good fight  
And all of the pain  
And all of the strife  
Means nothing to us  
We fight a good fight

The voices from above  
Said "Yr alright to carry on"  
So we thanked the Lord  
For the second chance  
We got to try again

And despite it all  
We're doing alright  
Our friends by our side  
We fight a good fight  
And all of the pain  
And all of the strife  
Means nothing to us  
We fight a good fight

We'll win in another life  
I know we will  
Tomorrow is another chance  
To make the next day better

We'll win in another life  
I know we will  
Tomorrow is another chance  
To make the next day better

We'll win in another life  
I know we will
