

Hope Of The States, Thee 70's Song

Are you ??????? and complain about the world
Take a look around and you'll see it's falling down

Keep your life full of joy
I won't let them destroy
All that's good and true in you, you're so much better
Keep your life full of joy
I won't let them destroy
All that's good and true in you

Do you ever think where you were
Before you were born into this world
This world is sick so I worry about what's coming in

Keep your life full of joy
I won't let them destroy
All that's good and true in you, you're so much better
Keep your life full of joy
I won't let them destroy
All that's good and true in you, you're so much better

Keep your life full of joy
I won't let them destroy
All that's good and true in you, YEEEEEAH!
Make the world swim with joy
Let the sadness be destroyed
Let the light go on tonight
