

Hope Sandoval & The Warm Inventions, I Thought

I thought I'd fall for you
'Cause you're different
This could be hard for you
That's way different

We all know that is wrong
All your looks after all
You were so proud for me
And here that's your secret

I thought you were lonely
Collapsing ???
You're even far away
Never hit the ground

I feel unhappy
Now that I'm over you
But there's nothing else to do
So you're feeling safe

Whisper like
A day cast in shadows
Moonlight cast the sky
