

# Hopes Die Last, Tempus Vincit Omnia

I'm trying to say to you how you will rise  
Like a child freezed in space and time  
You'll find the way to nowhere  
I'm here, but don't mind  
Do what you like  
I don't want to see no damn brakes  
Not this time  
Clearer  
Nine days searching for the crime  
So kill the lights one last time  
Let's try as we used to do in paradise  
Maybe with wrong words  
I'm trying to give it all away  
And I take your hands again and see  
They're deeply compromised  
Togheter  
we'll find the reason why it ends  
See it's clearer  
You're meant to be my only friend  
So kill the lights one last time  
Let's try as we used to do in paradise  
Maybe with wrong words  
I'm trying to give it all away  
And I take your hands again and see  
They're deeply compromised  
Maybe I'm not sure  
But that voice is running through my head  
Don't let me drown again and see  
My breath that goes away  
It's not easy to be there  
when it dies in your hands
