

Hornsman Coyote, Glow Jah light

Forget the sadness, don't need to worry
Havin' to glory, each day we glow Jah light x2
It's what about the smile in faces is there I use to know
It's what about the love and care we all then use to show (yes !!)
What about the light
It's what about the light
It's what about the light that use to shine in all so bright.
Forget the sadness, don't need to worry
Havin' to glory, each day we glow Jah light x2
So forget about the bad things ova' here and ova' there
So stop thinking 'bout the good things ova' here and ova' there
Come bring back the light!
Come bring back the light
Come bring back the light that use to shine in all so bright
Forget your sadness, don't need to worry
Havin' to glory, each day we glow Jah light x2
It's what about the smile...
It's what about the smile...
x2
z pozdrowieniami dla Stępnia ;)
