

Horrorpops, Miss Take

So there it lies, the full mistake
It eats away on us, it feeds on my mistakes

Your satisfied smile, tells me its not all right
Like a father you watch me confess to all my lies

I did it again, I made a mistake
Your right now, aren't you satisfied

So I did it again, I made a mistake
Your right now, aren't you satisfied

So maybe you were right
Maybe I'm not worth the fight
You being right is not always that nice

I wish we had the nerve
To be as we were
I wish I could find the root to all good
