

Hot Chip, Back To The Future

Great Scot, I'm turning my back to the future

Great Scot, I'm turning my back to the future
The here and now is where it's at, it's much simpler

Turn your back to--
Must get back to--
Turn your back against the future
Turn your back to--
Must get back to--
Turn your back against the future
Don't go forth, what's the worth
Don't go forth, what's the worth

Okay, so I should just dive headlong into the future
Well that's fine the DeLorean ? make a brighter future
Truth be told I prefer things old
And I've never been good with computers

Turn your back to--
Must get back to--
Turn your back against the future
Turn your back to--
Must get back to--
Turn your back against the future
Don't go forth, what's the worth
Don't go forth, what's the worth
