

Hot Chip, Defeated By Technology

defeated by technology again today
i try my best but i just can't get on my way
try to lay the track straight down right here and now
something's buzzing in my ear
it's all too loud
most of all i feel, i fall
if i don't capture this feeling
nothing coming down too smooth
for me this evening

watch it crumble in my hands just like before
i'm gonna show technology who's boss
once and for all
feel it crumble in my hands just like it always will
it's either me or my laptop
but soon one gets killed
