## Hot Chip, Don?t Deny Your Heart

Well you thought you could not go on Your bones are just beating like drums at your funeral song And your heart has been gone too long It's pushing for a drug that will beat it from right to wrong

Don't you know that it's hard?
Said it's hard for love
When you feel this but...
But I tried my best to cloak it, in a bind, I'm getting stronger
Will these womens
Take this somewhere else
Somewhere we don't go
In my heart we're getting stronger and I know where we belong in

All I wanted was you It's our last time to choose How are we gonna lie or second guess When we cover our eyes and we open our scars Are we ready to lay this all to rest

Don't deny your heart Don't destroy your heart (say y-y-yes) /2x

You'll see
We take fun seriously
Remember to breathe
My girl you're getting stronger
Eyes are bright and full of wonder
Tonight
If you want to step, I'll step with you
Walk ahead, walk through
You'll be grown to soon /2x

What are we gonna do Now there's nothing to lose How are we gonna move together Time you're breathing with me Now, our bodies agree Lose your shackles we must remember

Don't deny your heart Don't destroy your heart (say y-y-yes) /2x

Everything rises up
Until we are underground
Walk on me quietly
Until I by myself
Everything rises up
Until we are underground
Walk on me quietly
Until I hear the sound
