

Hot Chip, Hittin Skittles

Oh oh ohohoh

I'd really like to have it
But you know that we shouldn't order
Not that I'm a moral man
But you know what I I am
If I met you on the corner
Where I was once a man
Still I couldn't put it to you
But fear that you would understand

If we wern't ??????????
Know that that's my favorit track
I live inside dirty water
I trust that you would take my hand
I know that ??????????????
And you've got nothing on back
Bad ways of tilted talking
Still the best you've ever had

There has been no dirty moment
But I feel the need for bathing
I am going to keep my clothes off
Are you gonna call me baby

I'd really like to have it
But you know what we shouldn't order
Not that I'm a moral man
But you know what I I am
If I met you on the corner
Where I was once a man
Still I couldn't put it to you
But fear that you would understand

There has been no dirty moment
But I feel the need for bathing
I am going to keep my clothes off
Are you gonna call me baby
