

Hot Chip, Melody of Love

you left space for my
in this life
coz there are voice
which we cannot dream
in this life

all you need to here
is moving in the air
all you need is here
beyond the sphere
all you need to here
is moving in the air
all you need is here
beyond the sphere

when I am staying next to you
I'll rehear the silence news
what was.. our view
running out of love
I always seem to hesitate

there's a sound of resume
a melody of love

Melody of Love
Melody of Love

do you have faith
to feel in this world
coz it is hard
to see in this world

all you need to here
is moving in the air
all you need is here
beyond the sphere
every day
just liek a morning air
