Hot Chip, Over And Over

Laid back Laid back Laid back, we'll give you laid back Laid back Laid back Laid back, I'll give you laid back

Over and over and over and over Like a monkey with a miniature cymbal The joy of repetition really is in you

Under and under and under and under A spell of repetition really is on you And when I feel this way I really am with you

Laid back Laid back Laid back, I'll give you laid back

Over and over and over and over and over Like a monkey with a miniature cymbal The joy of repetition really is in you

Under and under and under and under A spell of repetition really is on you And when you feel this way I really am with you

I started thinking I knew what I had to do (tell you) I got to thinking that I mean just what you do (tell you) I started thinking I knew what I had to do (tell you, tell you, tell you)

KISSING SEXING CASIO POKE YOU ME I
