

Hot Chip, Shining Escalade

I want a shiny SKA, live my life a different way
Ride around the block with you my boo, always with you

A million others waiting at my gates
We build the fences now we can escape
Hide with me under the covers
'Cause you are my love

I want a shiny SUV, people see me differently
Fly around the world with you my boo, always with you

Of all the things I must do, there is only one that I will
I will give all of this to you, here it is have your fill

Fly around the world with you my boo, always with you
