

Hot Chip, Take Care

And I don't deal in books
I don't deal in looks
And don't ask for my recommendations
And I don't know about babies being born
And hits being hot
Baby, what you got

Take care into the home
Take care

It's never bang, bang, bang
It's run, run, run
And I'm only on my way
Don't tell me where I'm at
My heart is broke, broke, broke
And it's not for the cause of a lady
My eyes are choked, choked, choked
And it's no good looking at you

Take care into the home
Take care
