

Hot Rod Circuit, Tell The Truth

I had to hear about it from a friend of mine
you took your precious time
I know it's hard but you didn't even try
and you can't hide forever

Do you think about it is it on your mind
you fucked yourself this time
I know it's hard but it's not really a crime
and I can't hold a grudge forever

I want you to somehow tell the truth
and I want to somehow forgive you
before it slips away

And I've found there's an emptiness in me
turn this bottle down
I think it's time to set it down
