

Hot Water Music, North And About

we've seen three roads before
watching the states through the windows
makes me feel all the more
when there's a purpose that can make me sure
i'll show my glory in time as we spread this truth
i'll take your glory feed till i'm full so i can give you more
never thought my dreams would soar at least as high
as they're soaring
makes me feel all the more now that i've broken free
and i'm living it through
what more could i need when i'm with my friends
i'm not ejecting
