Hot Water Music, So Many Days

Is there something wrong Do ya hate this song Cuz I'm singin about it again Did ya know the words Before you read them Did ya notice She had it and she wants it again He had it and he lost it again In the fallout or the aftermath of So many days so many days I guess it's all been done Maybe it's all been sung Before By wiser people but its not stopping anyone Falling apart from heartache She had it and she wants it again He had it and he lost it again In the fallout or the aftermath of So many days so many days Another second is another made So many days
